Instructions for Idaho Form 75

Use this form for fuel purchased *on or after* July 1, 2015. Report prior purchases on the Form 75 For Fuel Bought Through June 30, 2015.

WHO MAY FILE

Any person or entity that has purchased 50 gallons or more of Idaho tax-paid gasoline or any quantity of Idaho tax-paid special fuels (diesel, biodiesel, biodiesel blends, propane, or natural gas) and used the fuel for a nontaxable purpose may file for a refund.

Only the final user (consumer) of the fuel may file Form 75.

- Any refund or tax due to a partnership or corporation must be reported by the business. It may not be applied to the individual returns filed by partners or shareholders.
- Any refund or tax due to a sole proprietorship must be reported by that individual.

You may claim a refund or report fuels tax due in one of the following ways: a) monthly, b) quarterly, c) annually, or d) alternate period (any period greater than one month but **not** more than one year).

If you file the claim with your Idaho income tax return, report the amount of the tax due or refund amount on the proper line of your income tax return, and attach a Form 75 to your return.

NOTE: Don't claim a refund for tax-paid fuel on your Idaho income tax return if you've previously claimed a refund for the same tax-paid fuel on a separate Form 75 filed during the year.

You may claim a refund of Idaho fuels tax if:

- You buy fuel with Idaho fuels tax included and use the fuel for a nontaxable purpose. This includes using the fuel: in unregistered equipment; to operate a stationary engine; in a refrigeration unit or other auxiliary equipment that has a supply tank separate from the main supply tank of the motor vehicle; or for home heating purposes.
- You file reports under the International Fuel Tax Agreement (IFTA) or operate an intrastate motor vehicle and use fuel from the main supply tank of a registered motor vehicle to operate power take-off equipment (special fuels only) or auxiliary engines (special fuels and gasoline). IFTA licensees must submit a copy of their IFTA report and Form 75-IC worksheet. Intrastate motor vehicle operators must complete and attach the Idaho Fuels Tax Refund Worksheet, Form 75-IMV. The allowances are listed in the Idaho Fuels Tax Administrative Rules, on the Form 75-IC worksheet, and on the Form 75-IMV worksheet. For more information, visit the Idaho State Tax Commission's website at tax.idaho.gov/i-1035.cfm.

- You operate an intrastate motor vehicle and use special fuels on nontaxable roads. You must complete and attach the Idaho Fuels Tax Refund Worksheet, Form 75-IMV.
- You use special fuels in a motor vehicle owned and operated or leased and operated by an agency of the federal government or the state of Idaho, including its political subdivisions (local government).
- You buy gasoline or special fuels with Idaho motor fuels tax included and use the fuel in an aircraft. You may only claim a refund of the difference between the Idaho motor fuels tax rate and the aviation gasoline or jet fuel tax rate. See the section titled **Aircraft Fuels Tax Refund**.

You may not claim a refund of Idaho fuels tax for:

- Gasoline used in registered motor vehicles.
- Gasoline or special fuels used in recreational vehicles or noncommercial motorboats.
- Gasoline purchased from an Indian-owned retail outlet.*
- Special fuels purchased from certain Indian-owned retail outlets.*

You owe Idaho fuels tax if you purchased gasoline, special fuels, or aircraft fuel, and:

- You didn't pay the Idaho fuels tax at the pump (including gasoline purchased from Indian-owned retail outlets and special fuel purchased from certain Indian-owned retail outlets*), and
- You used the fuel for a taxable purpose in Idaho.

*For information about Indian-owned retail outlets, see the "Fuel Purchased on Idaho Indian Reservations" page at tax.idaho.gov/i-1012.cfm.

RECORDKEEPING REQUIREMENTS

You must keep records that support your fuels tax refund claim. These records include all motor fuels receipts showing the total gallons of tax-paid fuel purchased, and the number of gallons of tax-paid fuel used in each type of equipment, both taxable and nontaxable. You waive all rights to the refund if you don't keep the required records.

AIRCRAFT FUELS TAX REFUND

If you've paid the aviation gasoline tax or the jet fuel tax, no additional tax or refund is due.

Gasoline. If you buy gasoline and pay Idaho gasoline tax, then use the gasoline in an aircraft, you're entitled to a refund of the difference between the gasoline tax rate and the aviation gasoline tax rate.

Diesel. If you buy undyed diesel fuel and pay the Idaho diesel fuel tax, then use the tax-paid diesel fuel in an

Instructions for Idaho Form 75

aircraft, you're entitled to a refund of the difference between the diesel fuel tax rate and the jet fuel tax rate.

Complete Section V FUELS TAX REFUND to compute the refund amount for the gasoline and/or diesel fuel tax and **Section VI FUELS TAX DUE** to compute the aviation gasoline and/or jet fuel tax due.

AIRCRAFT FUELS TAX DUE

Complete Section VI FUELS TAX DUE of this form to compute the aircraft fuels tax due if the Idaho fuels tax has not been paid on the diesel, gasoline, or other fuels used in your aircraft. You must report the tax due at the aviation gasoline or jet fuel tax rate.

USE TAX DUE

Use tax does not apply when the fuel purchased would qualify for the production, manufacturing, farming, or other exemptions.

When fuel isn't subject to motor fuels tax, it's subject to sales tax unless a sales tax exemption applies. If sales tax wasn't collected on the purchase, the buyer owes use tax.

Use tax is a tax on goods that are put to use in Idaho. If sales tax hasn't been paid on goods that are used (or stored for later use), the person who uses or stores the goods in Idaho owes a use tax (unless the goods are held for resale or some other exemption applies).

The sale of motor fuel is exempt from sales and use tax if the fuel is subject to motor fuels tax or if the motor fuels tax is paid when the fuel is purchased. However, when a refund of the motor fuels tax is obtained, the value of the fuel minus the state and federal taxes, if applicable, becomes subject to use tax. **(See Specific Line 4 Instructions for Section VII to determine if federal taxes are deductible.)**

If you owe use tax, you must report it on your Idaho income tax return, Idaho sales or use tax return, or Form 75 by completing **Section VII USE TAX DUE**.

Instructions for Idaho Form 75

SPECIFIC LINE INSTRUCTIONS FOR SECTION VII

You must separately calculate and report the USE TAX DUE in Section VII if you're reporting use tax and the fuel use falls under two or more of the following situations:

- Use qualifies for a federal tax refund.
- Use doesn't qualify for a federal tax refund.
- You're reporting dyed diesel fuel.

Make a copy of page 2 of the Form 75 for each additional calculation. Total the USE TAX DUE from each page 2 and include in the total for Section IV, line 5 of the Form 75.

Line 1. In the appropriate fuel type column, enter the number of gallons of fuel from Section V, line 2, or the number of gallons of untaxed fuel, that don't qualify for a sales tax exemption.

Line 2. To compute the average price per gallon, first add the total cost of fuel for each fuel type purchased during the refund period. Next, divide that total by the number of gallons on line 1 in the same column. The computation must be carried to 4 decimal places (x.xxxx).

Line 3. Don't use line 3 for dyed diesel fuel because the state fuels tax isn't included in the price of dyed diesel fuel.

Line 4. Enter the federal tax rate for each fuel type if:

- You purchased fuel that included the federal tax in the price, and
- You're eligible to receive a refund of the federal tax on that fuel.

For example:

- **Federal refundable use.** You may use line 4 if you're a contractor who purchased undyed diesel fuel, paid the federal tax, and used the fuel in a backhoe. If you have questions about federal nontaxable uses of fuel, please contact the Internal Revenue Service (IRS).

- **Federal nonrefundable use.** Don't use line 4 if you use undyed diesel fuel in a registered motor vehicle for which a refund of the federal tax is not allowed.
- **Dyed diesel fuel.** Don't use line 4 for dyed diesel fuel because the federal fuels tax isn't included in the price of dyed diesel fuel.

Note: Line 4 is for calculation purposes only. You must make federal tax refund claims to the IRS.

FEDERAL TAX RATES (AS OF 7/1/2008)						
Gasoline	Av Gas	Jet Fuel	Undyed Diesel	Propane	Com Nat Gas	Liq Nat Gas
.184	.194	.219	.244	.183	\$.183	.42

TOTAL REFUND OR TAX DUE

Section IV. Complete lines 1 through 7. (If the box for line 5 is checked, enter 0 on that line.)

If you're filing this Form 75 with your Idaho income tax return, enter amounts from the following lines on your tax return.

- Section IV, line 1 on the Gasoline tax refund line.
- Section IV, line 2 on the Special fuels tax refund line.
- Section IV, the total of lines 3 and 4 on the Special fuels tax due line.
- Section IV, line 5 on the Sales/use tax due line.

You must sign Form 75 if you file it separately from your income tax return. **An unsigned form will delay your refund.**
